## Short Description

Moist Heat Compress for Contact Lens Wearers

## Description

—

**Extends the comfortable wear time of contact lenses while reducing the risk of infection.**

- Experience the ultimate in clean, moist heat from the first and only compress clinically proven to extend comfortable wearing time of contact lenses
- Designed with patented MediBeads® and EyeOnic™ anti-microbial fabric, Eyeleave™ is convenient to use.
- The compress features technologies that have been clinically proven to

- extend the comfortable wear time of contacts by up to 3 hours.
- Just heat in the microwave for 20 seconds and apply for 8-10 minutes. There's no wetting, no fuss – just penetrating moist heat.
  - It can be used daily or as needed to provide extended lens comfort.

Using the Eyeleve™ compress stimulates the meibomian glands to provide natural lubrication and soothe tired, irritated eyes.
