Brand:
Product Code: 93446AS
Availability: In Stock
Weight: 423.00g
Dimensions: 175.00mm x 65.00mm x 70.00mm

Price: \$7.40

Short Description

pure saline solution.

Description

Lens Plus OcuPure Saline with its patented ingredient OcuPure, is formulated to be gentle in your eyes. It contains OcuPure which uniquely transforms into natural tear components in the eyes when exposed to light, providing optimal convenience and comfort of a preservative-free product.

The pH value of Lens Plus OcuPure is very similar to that of natural human tears, thus providing the greatest level of comfort.

Lens Plus OcuPure Saline is a sterile, buffered isotonic solution containing sodium chloride, boric acid, purified water, sodium hydroxide and 0.005% OcuPure as a preservative.

Indications:

- For use with soft and RGP contact lenses
- For use as a rinsing agent after daily or weekly cleaning of lenses and before lens application.
- For storage after heat or hydrogen peroxide disinfection
- For storage of lenses up to 30 days following disinfection
- For use as a diluent for enzymatic tablet designed to be dissolved in saline.
