Short Description

Aids in the supplementing the eye to fight macula aging changes 60 tablets

Description

MacuVision® Plus contains antioxidants that help protect against free radical damage in the eye.

As we age our eyes and macula can become more susceptible to free radical damage.

It contains lutein and zeaxanthin which are deposited in the retina and macula.

In the eye, lutein and zeaxanthin filter (high energy) blue light.

Read the manufacturer's directions before use.
