Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: \$32.95

Short Description

Lid and Lash solution

Description

Bruder Hygienic Eyelid Solution is an all-natural, isotonic saline wash that delivers prescription strength results without the cost and inconvenience of a prescription.

This proprietary eyelid and lash solution, containing a pure and stable form of hypochlorous acid, works to support rapid and effective relief from:

- dry eyes
- styes
- red, itchy eyelids associated with conditions like blepharitis and meibomian gland dysfunction (MGD)

It is designed to assist in the removal of foreign material and debris on and around the eyelid margins.

Bruder's solution is easy to apply; with no need to rinse or wipe simply spray and let dry allowing the gentle, hypoallergenic formula to clean and soothe. For best results, have patients apply at least twice daily on freshly washed, makeup-free lids. Intended for use on lashes and eyelid margins.

Bruder Hygienic Eyelid Solution is available in two sizes – 1 fl oz. (30mL) and 2 fl oz. (60mL).

Features:

- Prescription strength without the prescription - a cost effective over the counter formula
- 0.02% Hypochlorous Acid Solution
- Safe for daily long term use
- Stable and pure without the additives found in other solutions
